March 2021 Issue

March 2021 President's Message

We had another wonderful meeting last month. Peter T. Lin's talk on "Mini-Cattleya's" was exceptional, with some great tips and insight for their culture and care.

April is right around the corner and it brings with it spring rains, higher temperatures, longer days, and a continuation of our blooming season. I hope you are still enjoying your labor's rewards with many, many blooms.

I find the change of the season - - with longer days, and higher temperatures - - mean that your orchids are working longer hours, thus consuming more resources. Higher temperatures also mean faster dehydration on your orchids. So, feed and water accordingly... you'd hate to find tender new growths burning up for no apparent reason.

Our April speaker will be our very own **Rachel Lemcke**. Rachel will be discussing the P.E.T Method for Catesetum-type orchids. And, her results have been amazing - - a "can't miss" session for you Catesetum lovers.

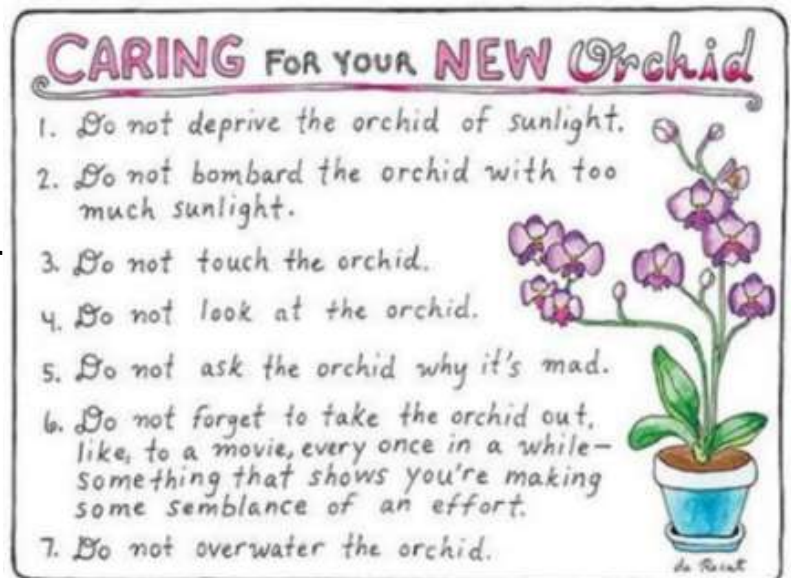

Our next ZOOM meeting is scheduled for **Wednesday, April 7, 2021 at 7:00pm**. As always, the virtual meeting room will be

open at 6:45pm for our monthly "Show & Tell."

I look forward to seeing you all there.

Jaymie Santiago

How Do You Grow?

Each month, I would like to show a members growing methods/conditions. We started with ours. Please send me pictures of your growing conditions (summer/winter) edsharkf@yahoo.com No submission this month. Let's get some pictures of your growing space.

RETRO CJOS

We did an Orchid Show at Snipes Nursery in Morrisville Pa. back in 1986. It was a wonderful location in their large sunlit greenhouse. We had access to plenty of background greens from their inventory. We even got a front page spot from the Trenton Times. For those of you that are not familiar, it was a newspaper made of paper and you bought or had it delivered. Much different then today's digital print.
